Building Safe and Compassionate Schools: Values Formation as a Shield Against Violence

*Theme: From Fear to Empathy: Strengthening Values Formation in light with
biblical principles to Prevent School Violence and Promote Peace*

The recent incidents happening in schools have shaken communities worldwide, leaving deep scars on students, teachers, and families. School is supposed to be a safe place where students can learn, grow and pursue their dreams not a place where trauma is created and innocent lives are affected. The rise in such incidents is often linked to bullying, mental health struggles, exposure to violent media, and the absence of strong support systems.

The challenge is not only about preventing physical harm but also about addressing the culture of fear that spreads after these events. Students who witness or hear about shootings often carry anxiety, mistrust, and emotional wounds that affect their academic performance and social relationships. Teachers, too, struggle with balancing their role as educators and protectors.

By embedding Values Formation in light with biblical principles into the curriculum and school culture, communities can proactively prevent aggression, foster resilience, and create environments where peace and empathy thrive. It empowers learners to resolve conflicts peacefully, support one another, and stand against violence, ultimately building schools that are both safe and compassionate.

Our company would like to extend our help by giving our students, teachers, and families a Free Online Seminar on Values Education entitled **Building Safe and Compassionate Schools: Values Formation as a Shield Against Violence** with a Theme: From Fear to Empathy: Strengthening Values Formation in light with biblical principles to Prevent School Violence and Promote Peace.

CPDCFT Training Center is one of the top training providers in the country since 2019 providing trainings, seminars, workshops and conferences for Ranking, Promotion and Non-teaching personnels.

Seminar Objectives:

A well-structured program should enable participants to:

1. Enable participants to internalize empathy, respect, and compassion as guiding principles in daily interactions within schools and families.
2. Strengthen the role of Values Education by embedding it into classroom practices, student activities, and family routines to reinforce positive behavior.
3. Equip participants with the ability to recognize early signs of conflict or aggression and apply proactive, values-based strategies to prevent escalation.
4. Build strong partnerships between educators, students, and families to create a united culture of safety, accountability, and shared responsibility.
5. Inspire participants to design and implement concrete initiatives, policies, and advocacy efforts that promote peace and compassionate school environments.

Through the fulfillment of these objectives, our goal is to transform schools into safe, compassionate, and values-driven communities where students, teachers, and families work together to prevent violence and nurture peace.

The Seminar will take place this September 5, 2026 Saturday from 8:00am to 12:00pm ONLINE. It is FREE to all DEPED Teachers with E-certificates.
